

Short-Answer Homework

- 1. Explain leverage Describe in 2-3 sentences what leverage means for a DB and how inside vs. outside leverage shapes your expectation.**
- 2. Pre-snap checklist List three things you identify about the DB before the snap.**
- 3. Read defenders, not routes Explain how this mindset keeps you from being late or holding the ball.**
- 4. Eyes tell lies Describe how your eyes/body move a defender. Give one example.**
- 5. Body language cues Pick two (square feet, heavy toes, inside lean, drifting, tight press, outside/inside shade) and explain the signal.**
- 6. Manipulating leverage drill Describe the drill and how you choose the route based on the DB's leverage.**
- 7. Post-snap speed Why does a QB think fast but don't rush prevent mistakes?**
- 8. Hot route decision Give a scenario where you change to a hot route based on alignment/body language.**
- 9. Deep balls & leverage Explain how reading leverage early improves deep-ball precision and timing.**
- 10. Whole-picture vision Why must a young QB see the whole picture pre- and post-snap?**

Multiple-Choice Quiz

1. If a DB is on the WR's outside shoulder he has f A) Inside leverage B) Outside leverage C) No leverage D) Press leverage
2. Which pre-snap clue IDs leverage? A) WR stance B) QB steps C) Shoulder the DB shades D) Play call
3. DB inside leverage? The QB often wants to f A) Throw inside B) Attack outside / fade C) Call a run D) Throw backside only
4. Why read defenders, not routes? A) Routes never change B) Defenders can jam timing C) Coaches say so D) Easier practice
5. DB body language hinting blitz? A) Drifting back B) Heavy on heels C) Inside lean / heavy toes D) Hands on hips
6. Tight press at LOS â call f A) Deep comeback B) Quick release hitch/flat C) Long post-corner D) Double move only
7. Pump or shoulder fakes help because f A) Remove hands from ball B) Move defenders w/out losing security C) Slow drop D) Force blitz
8. â Eyes tell liesâ means f A) Stare target B) Look one way to move defenders, throw opposite C) Close eyes D) Skip pump fakes
9. Post-snap mindset that kills errors? A) Think fast but don't hurry B) Throw instantly C) Watch WR only D) Ignore leverage
10. Recognizing leverage pre-snap helps QB f A) Run more B) Throw deep accurately/on time C) Skip progressions D) Ignore safeties

11. Drifting/backpedaling DB is likelyâ f A) Sitting short
B) Blitzing C) Preparing to play deep D) Playing run
only

12. Keep two hands on the ball becauseâ f A) Looks better
B) Avoids fumbles when defenders swipe C) Helps WRs D)
Makes ball lighter

13. Understanding leverage/alignment lets QBâ f A) Throw
blindly B) Make faster accurate decisions C) Watch
scoreboard D) Ignore safeties

14. Likely hot-route alert? A) DB inside leverage
leaning like blitz B) DB giving 12 yds cushion C) DB
turning back D) DB signaling safety

15. Seeing the whole picture helps becauseâ f A) Slows the
game down B) Defenders disappear C) Avoids
progressions D) Guarantees TDs
